

## TIPS for KIDS

- Delete emails from unknown persons without opening them.
- Ignore or delete free offers. If it sounds too good to be true, it probably is.
- **NEVER** give out personal information online or post it to a website.
- Be very cautious of people you “meet” online. They may not be who they claim to be, and they may be dangerous. Tell an adult and never meet them alone.
- If someone persists in asking for personal information or pressures you meet them someplace, or does ANYTHING to make you feel uncomfortable, tell a trusted adult immediately!
- Always check for viruses before executing programs downloaded from the Internet.
- Don't put software on your computer if you don't know where it came from.
- Download files to a disk and scan them BEFORE you look at them
- Alt & F4 to Clear Cookies
